2019 KinderMart Sale Guidelines

KinderMart reserves the right to reject any item that we deem inappropriate. In order to maintain the high standard of quality at our sale, our guidelines must be abided. Any items that are stained, dirty, have an odor or are excessively worn or faded will not be accepted. **See the complete list of items accepted/not accepted on page 4.** **All items must be tagged and hung properly or we cannot accept them.**

TAGGING AND PREPARING ITEMS - All items must be prepared and tagged properly for sale, per the guidelines in this packet or you will not be allowed to check in. Tags are barcoded and can only be printed via our website. They must be printed on minimum 65 lb. white CARDSTOCK paper only. If you have trouble printing, you can save or email the .pdf file of your tags to a friend or copy shop to be printed. All tags must be on the **OUTSIDE** of plastic bags so the scanner can read the barcode. Please don't tape directly over barcode. Use a detailed description of the item so we can find it should the tag come off. Secure tags to clothing with safety pins. Tape them to bagged items, toys and other items with **CLEAR PACKING TAPE** only. **NO** other tape will be accepted. Large, multi-part items should have tags with seller # and description on all items, but price **ONLY ON ONE TAG.** (i.e. 1 of 3, etc.) **The tagging system will shut down on Tuesday, March 19 at 11am, so you MUST have all your items entered and tags printed by this time.**

CLOTHING - Launder and **SORT** clothes by size and gender before you create your tags if possible. Items **MUST** be sorted by size and gender before you arrive at drop-off or you will have to do it onsite. All items must be stain-free, pet hair-free and in excellent condition. Iron, if needed. All buttons, zippers, snaps, etc. must be hooked (this shows none are missing, etc.), and clothes **HUNG** (not pinned) on **WIRE HANGERS** only. Plastic hangers will be rejected. Safety pin multiple items together so they don't get separated. Secure items on the hanger because the racks get very crowded. Safety pin pants or shorts to the **TOP ARM** of hangers, not the bottom bar, so they don't slide around. Hanger hooks must face **LEFT** and tags should be placed on the upper **RIGHT** shoulder of the item when viewed on the hanger. Mark clothes with exact sizes (i.e. 3 months, 2T). If something says Small/Medium/Large, use your best judgment to mark the appropriate size. We accept infant and children's clothing preemie through boys/girls 16. We do not accept Junior or adult sizes. College or sports logo shirts and outfits must be Georgia or southern region teams only.

General Tips from Experienced Sellers	Cleaning Tips
Price your items to sell quickly (especially 12 months and under clothing.) People expect to get a good bargain at a consignment sale.	Soft Scrub is excellent for getting crayon off of plastic toys, tables, etc.
Evaluate your prices. Would you pay that price for the item?	Clorox Bleach Pen can be used to spot treat a bad stain on a clothing item that can’t otherwise be bleached (i.e. a blue dress with a white collar - you can spot treat just the collar with bleach and then launder normally.)
In pricing clothes, consider pricing items 1/3 of the original (new) price for items in excellent condition; 1/4 of the original price for items in good condition. New items with tags still attached are top sellers.	Mr. Clean Magic Eraser will get pencil, crayon or scuff marks off of wood.
If you do not sell much, perhaps your prices are too high or the clothes are outdated or worn?	Rub shampoo directly on shirts to get out “ring around the collar.”
Take the time to write good descriptions of your items on tags. This helps YOU if the tag should get separated from the item.	Rubbing alcohol helps remove stickers from plastic. White vinegar can be used on wood.
Make sure shoes are cleaned and shined for better sales.	Soak clothes in warm vinegar and water mixture to remove perspiration stains.
Sort your items by size and type before you begin tagging. It will help you price them more accurately to see similar items grouped together and it helps volunteers speed up the take in process.	
BE ON TIME!!!!!! For your drop off appointment, for pick up on Saturday, and of course, when it’s your turn to shop!

Using the MyCM Tagging System:

If this is the first time you have used MyCM, please be patient and look carefully at the various buttons and options available on your screen as you work.

You will log in to the MyCM system via the link on the KinderMart website. The first time you use the system, you must create an account. **Please be sure to do this only once! You will use that same account login for future sales, whether you are selling or just a volunteer.** You can edit your username or password at any time. Once you have a MyCM account, you will register for the KinderMart sale and pay your \$7 seller fee via Paypal. Then, for future sales, you will simply log in as a returning seller each time.

*****IMPORTANT*** If you have already sold items through another sale that uses MyCM (such as the CCC MOPS Sale), you should use the same login name and password to log into your account. Then you can register for the KinderMart sale and obtain your seller number. This will allow you to transfer your unsold items from other sales to ours.**

Once you have registered and are logged in, you will be directed to a Welcome page with your name and seller number. From that page, you can choose from the tabs at the top to "Enter Items," "Print Tags," "Volunteer," and register for a "Check In" appointment. You should not need to use the "Manage Inventory" tab unless you also sell with other sales that use MyCM and wish to transfer items from that sale to KinderMart. You can, however, find some Help Tutorials on this tab if you are having trouble and need help editing an item, etc.

As you are tagging your items, please keep in mind:

- Old KinderMart tags from our previous system cannot be accepted. You must use the new tags for all items each sale. However, if you sold in the season prior to this sale, you can "transfer" unsold items from sale to sale through a simple procedure. This will save you from retyping all that data, **even if you have a different seller number for this sale than the last one.**
- MyCM will number your items, however we are NOT conducting an inventory sale. These numbers are a convenient way to see how many items you have, but they will not be used to track your stuff. You must have between 25 items minimum and 500 items maximum to participate in the sale.
- If you delete an item, that item number will disappear. If you want to keep your item numbers consecutive for counting purposes, just edit the item to something else, don't delete it.
- When entering items for tags, you must type your tag info and detailed descriptions into the computer. You can no longer print blank tags and hand-write your descriptions. Make sure we can match up your item with its tag should the tag become separated.
- You must choose "Discount" (1/2 price Saturday) and/or "Donate" options for each item. The system remains on whatever you chose for your most recent tag, so you don't have to keep clicking that box each time, but you always have the choice on how you want to handle those options for each item individually. Please note, if you choose "Donate," the computer will force you into choosing "Discount" for that item as well. However, you may choose to discount an item, but not donate it.
- Our minimum price is \$1 and increments are by \$.50. You will choose your price from the scrolling table of all available prices from \$1 to \$500.
- Our categories list is specific. This should help us make sure we get these items on the correct racks. If you don't know what category to use, miscellaneous is fine. If you have a large item such as a car seat, bouncy seat, high chair, etc., please use the proper category. This will allow us to see ahead of time how many Strollers, High Chairs, etc. to expect at Drop off, and we can plan our space on the selling floor, accordingly.

- If none of the sizes on the list work for you, choose “Not Applicable” and type your info in the “Description” field. Please be as specific as possible when choosing sizes. Buyers want to know details! If you are unsure about items with tags showing a range (i.e. 9-12 months), go with the smaller size. Used clothing has typically shrunk with washing, so this is a safer bet.
- Always group “like” items together before you begin tagging them. Having all your shoes or clothes by size together in advance will help you determine pricing more accurately and provide better descriptions as you tag them. Plus, if you bring them to drop off in groups, we can get them placed on the sales floor much more efficiently than having to sort as we go. This helps expedite the drop off process for all sellers.
- If you have a laptop, many users find it easiest to work wherever your items are stored, rather than dragging them all to your computer desk. Many sellers use a spare bed as their tagging station, where they can stack and sort groups of clothes and put the laptop nearby. Having two people working together makes this process even faster and easier!
- When you generate your tags for print, you can choose to mark them as “generated” or not. This allows you to test print tags if you want, before you do a final print on cardstock. You can also print tags as you work, over multiple work sessions. You will always know which tags you have already printed. You can also print just one or a few of your tags (such as if you made changes and needed to reprint something). When you generate tags, MyCM puts them into a .pdf file format. This is handy in case you want to save the document and print later, or if you are having printer troubles, you can email the file to a friend or copy shop to be printed. If you need to make changes however, you must edit or create new tags and generate those to be printed again. You cannot edit the .pdf file itself.
- Contact us at info@kindermartsale.com if you encounter trouble using the MyCM system and cannot resolve it on your own. We will get back to you as quickly as possible. If you are a first time seller please do not wait to the last minute to create your tags, we may not be able to help you before the deadline for dropping off your items.
- **Please remember to register for your Item Check-In (Drop-Off) appointment online at the Login page.** You can change your appointment in the case of an emergency ONLY. Changes will be subject to the remaining appointments available.
